## PENLIBATAN WARGA DOSM SEBAGAI PESERTA PROGRAM LATIHAN PERINGKAT NATIONAL/ANTARABANGSA

### E-Learning Course on Machine Learning for Official Statistics and SDG Indicators

36 orang peserta

21 Nov. 2022 - 15 Jan. 2023

**Agenzi:** United Nations Statistical Institute For Asia And The Pacific (UNSIAP) with collaboration Asian Development Bank (ADB)

This course introduces machine learning as a tool for using either traditional or nontraditional data sources (big data) to produce high quality predictions for official statistics or Sustainable Development Goals (SDGs) indicators. The course provides an opportunity to explore and comprehend the techniques of machine learning in comparison with more traditional statistical methods.

### E-Learning Course on Teaching and Communication Tools For Enabling Statistical Thinking

19 orang peserta

10-12 Jan. 2023

**Agenzi:** International Statistical Institute (ISI)

This course supplies tools and best practices for teaching and communicating statistical thinking as a foundation for conducting, understanding, and applying statistics. While the statistical community has a wide variety of successful tools for teaching statistical calculations and tests, examples and resources for teaching statistical thinking are less common. This course include examples from scientific studies, official statistics, working with decision-makers, and communicating to the general public.

### E-Learning Course On Compiling Climate Change Indicators: An Accounting Approach

2 orang peserta

16 Jan. – 24 Feb. 2023

**Agenzi:** Institut Statistik untuk Asia dan Pasifik (SIAP)

This course will focus on climate change indicators that can be compiled from environmental economic accounts and will learn how to compile various indicators that inform climate change. The focus of the course is on better understanding the relationship between climate change and economic activity. In particular, this course will learn about physical supply and use tables for energy and air emissions, and indicators that can be compiled from these accounts.
