PERPUSTAKAAN NEGARA MALAYSIA

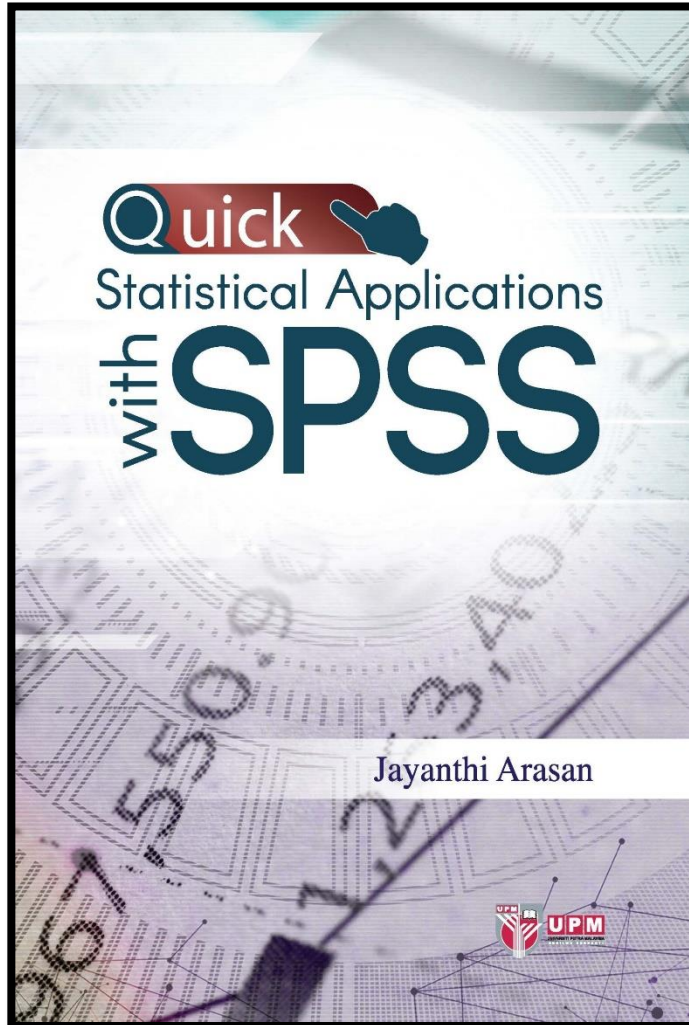

Quality of Life and Public Management explores the possibility for a dramatic and significant improvement in quality of life for all population groups and sub-groups in the UK. Strongly evidence-based, the book draws on case study data and comparisons into local and central government structure, funding, policy, cultures and outcomes from a number of EU countries, such as Denmark, Germany, and Switzerland. It shows that quality of life on a number of important criteria is superior in these other countries than it is in the UK. The book makes a strong argument that it is possible to replicate this success in the UK and that failure to do so has been the result of failed political institutions, in particular local government.

The book is rooted in the belief that every locality can and should have the best possible standards of health, quality of life, environment, climate change protection and transport choices that can be found anywhere in the world.

ASEAN is often said to be the “cornerstone” of Malaysian foreign policy, and Malaysia has certainly played a central role in the development of this regional endeavor. Malaysia’s approach to regionalism and community building, however, has not received enough analytical attention. The study of Malaysian regionalism is important, in part, because over recent years we have seen an increasingly fluid and multiplex Asian region - in which not only major powers but also smaller states can be influential.

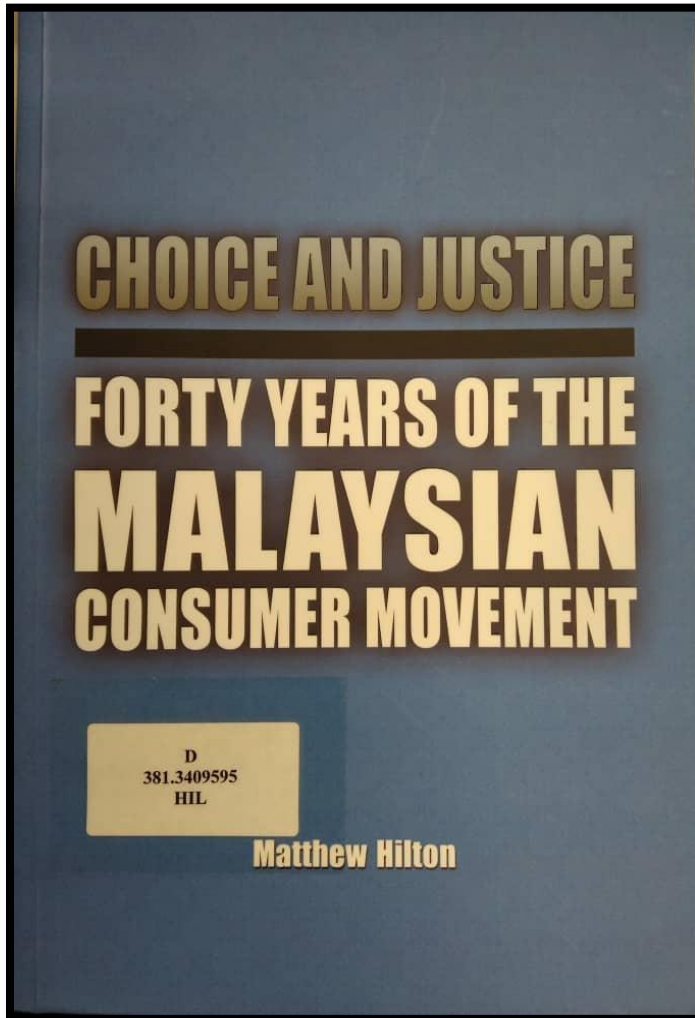

In this developing situation, it is becoming urgent to understand non-Western thinking about international relations not only in China, the United States and India but also in individual Southeast Asian states such as Malaysia.

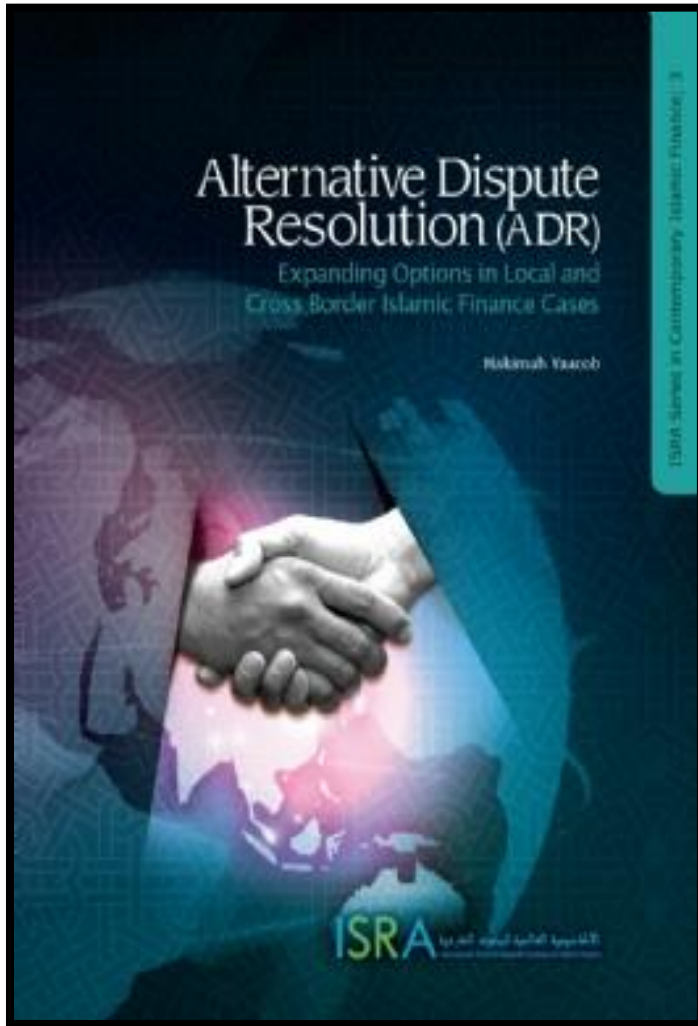

This book provides a quick and efficient guide for anyone interested in statistical data analysis using SPSS. The application of common statistical tools in SPSS are discussed via step by step instructions with diagrams. Simple and appropriate examples are given for each analysis, and interpretations based on the outputs are discussed in every chapter. The gentle treatment of SPSS would help readers to run most analyses with ease. The background materials related to each topic are presented in a straightforward manner, allowing readers to follow through effortlessly and comfortably.

The book contains topics that are generally covered in most of the applied statistics courses for beginners, including:

- Descriptive Statistics
- Statistical Inference
- Analysis of Variance
- Linear Regression
- Quality Control
- Categorical Data Analysis

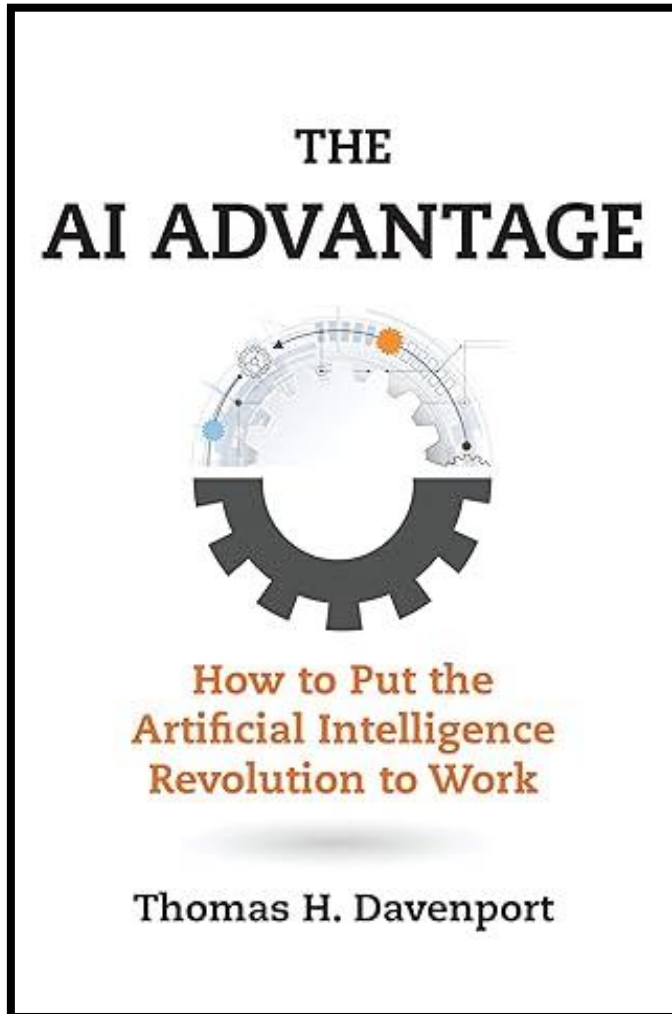

This book is more than a history. It is also a powerfully articulated challenge to the movement and Malaysian consumers to define a future where growing affluence does not mean losing touch with visions of social justice. If it meets the challenge, this Third World consumer movement will have much to teach its First World counterparts.

This book contains a detailed discussion of each of alternative dispute resolution (ADR) i.e. arbitration, mediation, conciliation options and the possibility of applying them to Islamic finance disputes, taking into account the backgrounds of different international jurisdictions. It also analyses decided cases of international disputes.

THE AI ADVANTAGE: HOW TO PUT THE ARTIFICIAL INTELLIGENCE REVOLUTION TO WORK

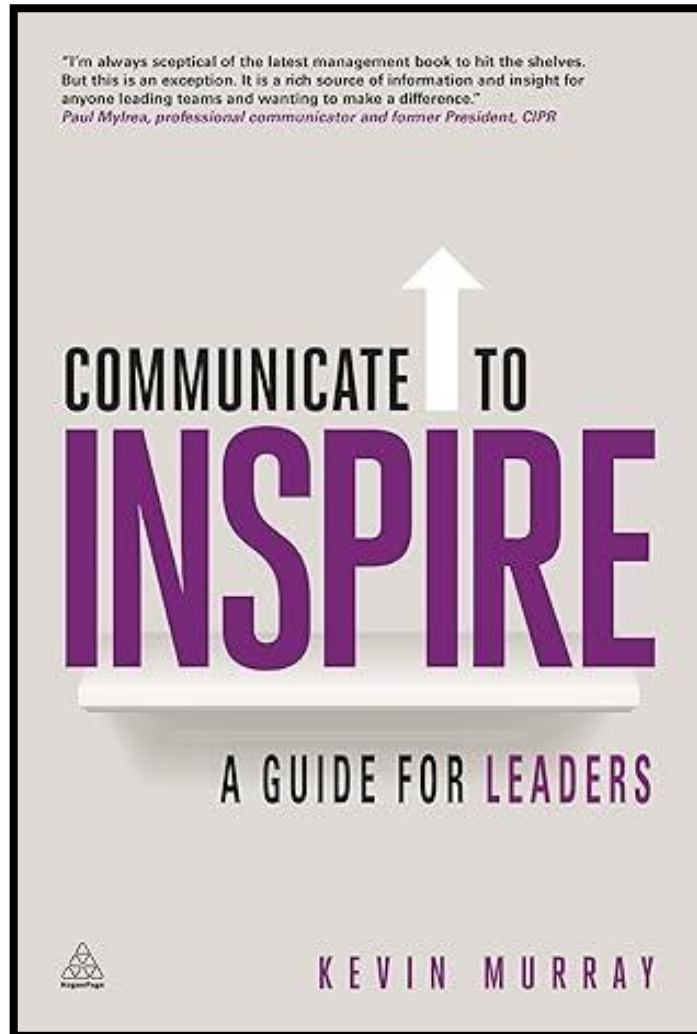

The AI Advantage, Thomas Davenport offers a guide to using artificial intelligence in business. He describes what technologies are available and how companies can use them for business benefits and competitive advantage. He cuts through the hype of the AI craze—remember when it seemed plausible that IBM’s Watson could cure cancer?—to explain how businesses can put artificial intelligence to work now, in the real world. His key recommendation: don’t go for the “moonshot” (curing cancer, or synthesizing all investment knowledge); look for the “low-hanging fruit” to make your company more efficient.

AI will improve products and processes and make decisions better informed—important but largely invisible tasks. AI technologies won’t replace human workers but augment their capabilities, with smart machines to work alongside smart people.

Buku ini menggabungkan dua aspek penting sebagai rujukan iaitu kaedah penyelidikan dan asas-asas statistik. Buku ini diketengahkan dengan bahasa yang mudah dan ringkas, bersesuaian dengan sifatnya bagi memudahkan penyelidik dan pelajar yang baru berjinak-jinak dengan dunia penyelidikan.

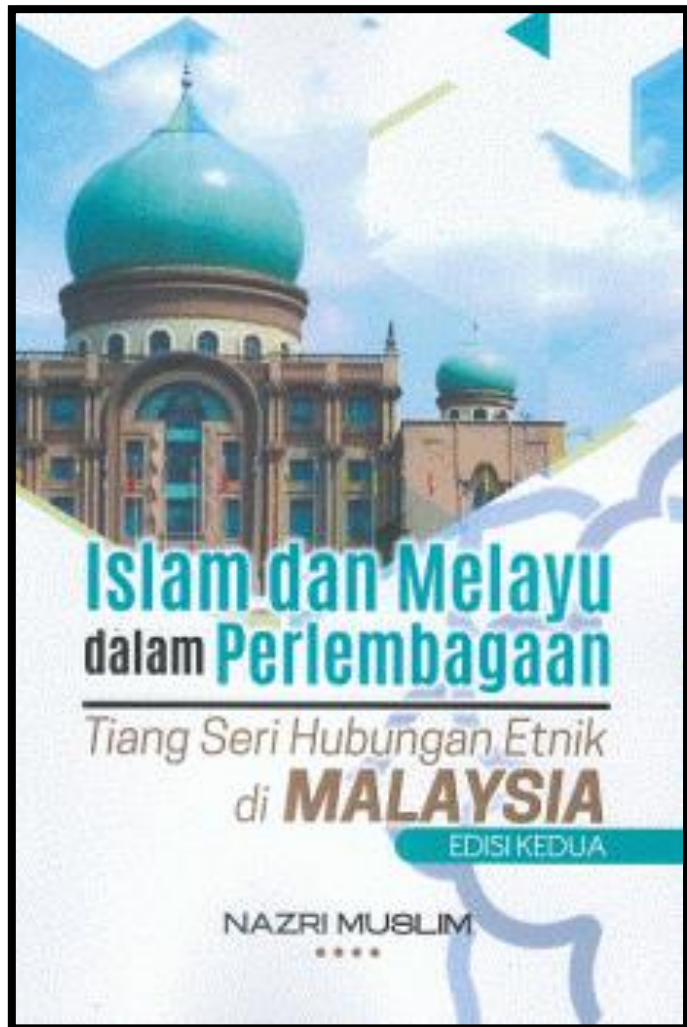

Buku ini juga memberikan panduan kepada penyelidik dan pelajar untuk memahami apakah sebenarnya yang dikatakan sebagai kajian. Kajian dilakukan bukanlah sekadar untuk mengetahui satu-satu fenomena, tetapi ia juga merupakan satu cara untuk kita menjawab isu yang masih diperdebatkan dalam kajian-kajian terdahulu. Perbincangan turut menyentuh beberapa isu utama yang jarang dibincangkan dalam buku pengantar metodologi tempatan termasuklah '*common-method variance*' dan juga beberapa kaedah baru yang jarang digunapakai dalam konteks Malaysia.

Inspirational leaders make us want to achieve more. They persuade us to their cause, win our active support, help us to work better together and make us feel proud to be part of the teams they create. In short, how well you perform as a leader depends on how well you communicate.

Shortlisted for the 2014/15 CMI Management Book of the Year Award, *Communicate to Inspire* is an essential manual for any aspiring leader, answering these key practical questions. **Kevin Murray** presents a model that charts the leadership process and draws stories from the years of experience he has had coaching top leaders from a wide range of organizations. He examines and analyzes some of the key successes (and failures) in leadership and provides a unique and successful model for developing your own leadership skills.

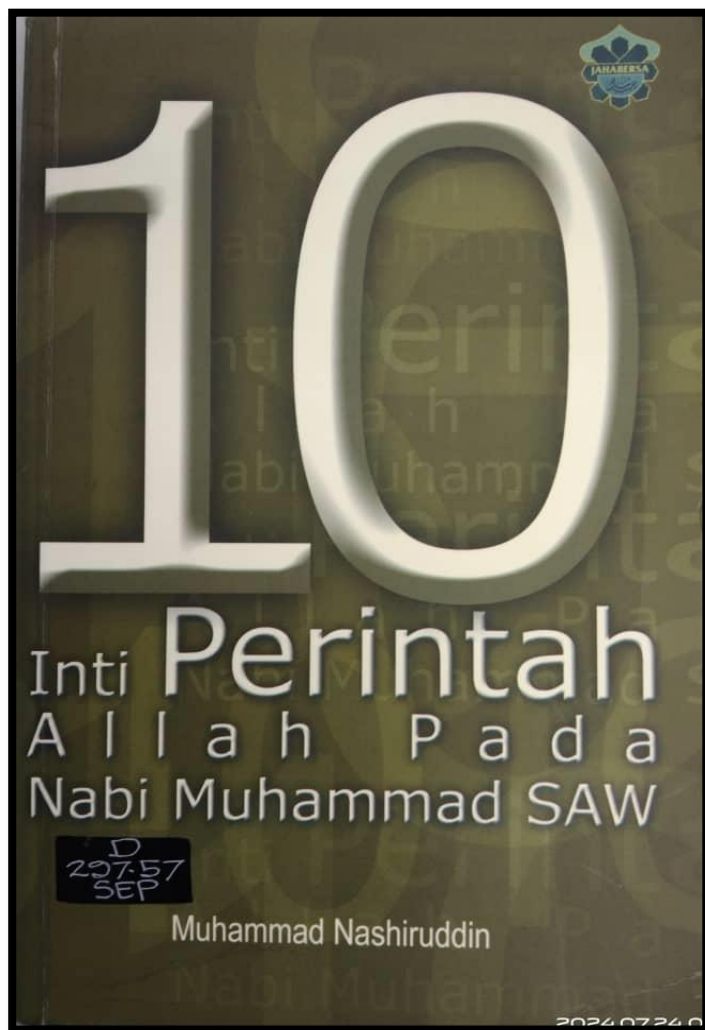

ISLAM DAN MELAYU DALAM PERLEMBAGAAN: TIANG SERI HUBUNGAN ETNIK DI MALAYSIA

Buku ini diterbitkan atas kesedaran untuk menyemarakkan lagi diskusi ilmiah mengenai perlembagaan dalam bahasa Melayu. Kedalaman perbincangan buku ini mengkhusus kepada dua tiang seri dalam perlembagaan iaitu Islam dan orang Melayu yang sering kali menjadi konflik dalam masyarakat Malaysia yang terdiri dari pelbagai etnik. Berasaskan kajian ilmiah yang menyentuh isu-isu Islam dan orang Melayu dalam perlembagaan dari perspektif hubungan etnik, telah mencetuskan idea untuk menghasilkan buku ini untuk tatapan umum.

Antara kandungan penting dalam buku ini ialah Islam dan Melayu dalam perlembagaan, isu-isu yang berkaitan seperti diskriminasi perlindungan, perbahasan peruntukan Perkara 153, kesamarataan dari pandangan Islam dan cuba membawa misi ke arah memasyarakatkan perlembagaan.

10 INTI PERINTAH ALLAH PADA NABI MUHAMMAD SAW

Sembahyang berjemaah merupakan lambang perpaduan umat Islam, lambang kasih sayang dan kekuatan umat Islam. Perintah sembahyang berjemaah tidak boleh dianggap ringan, walau tidak sampai ke tahap wajib fardhu ain kepada semua.

Sembahyang berjemaah sebenarnya memberi peluang kepada sesiapa yang taat mendapat kebaikan dan pahala yang berlipat ganda. Ini bererti orang yang sembahyang sendirian atau tidak berjemaah hanya diberi ganjaran satu kali. Sebaliknya orang yang sembahyang berjemaah masing-masing akan mendapat 27 kali ganda daripada sembahyang sendirian. Sembahyang berjemaah melahirkan syiar umat Islam. Iaitu lambang perpaduan umat Islam yang boleh dilihat setiap lima waktu sehari semalam.
