PERPUSTAKAAN NEGARA MALAYSIA

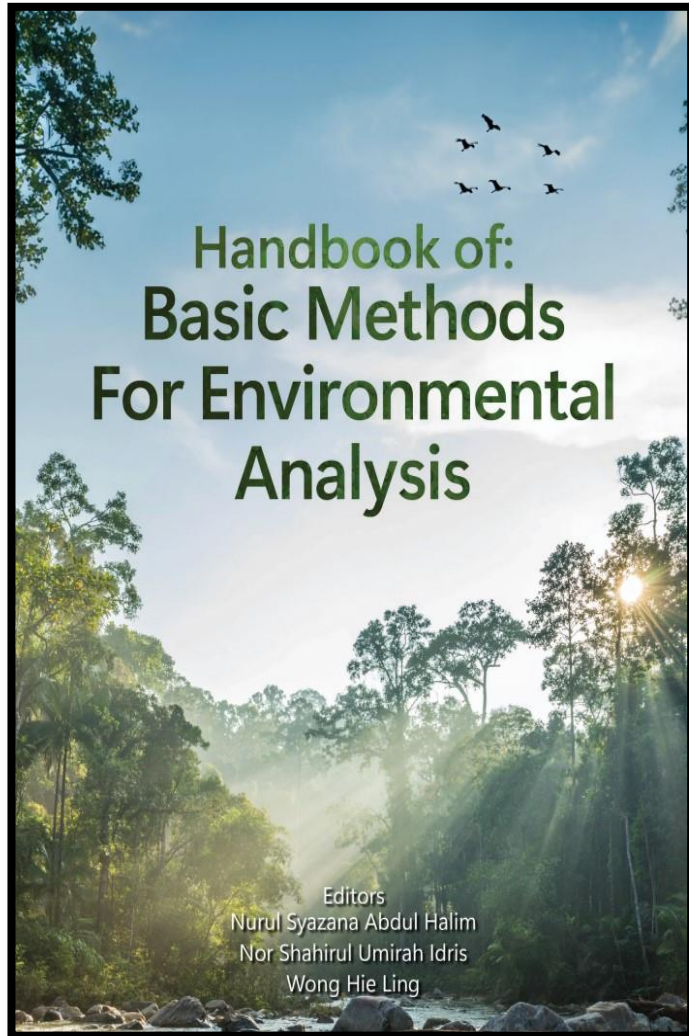

QUALITATIVE RESEARCH: DATA COLLECTION & DATA ANALYSIS TECHNIQUES

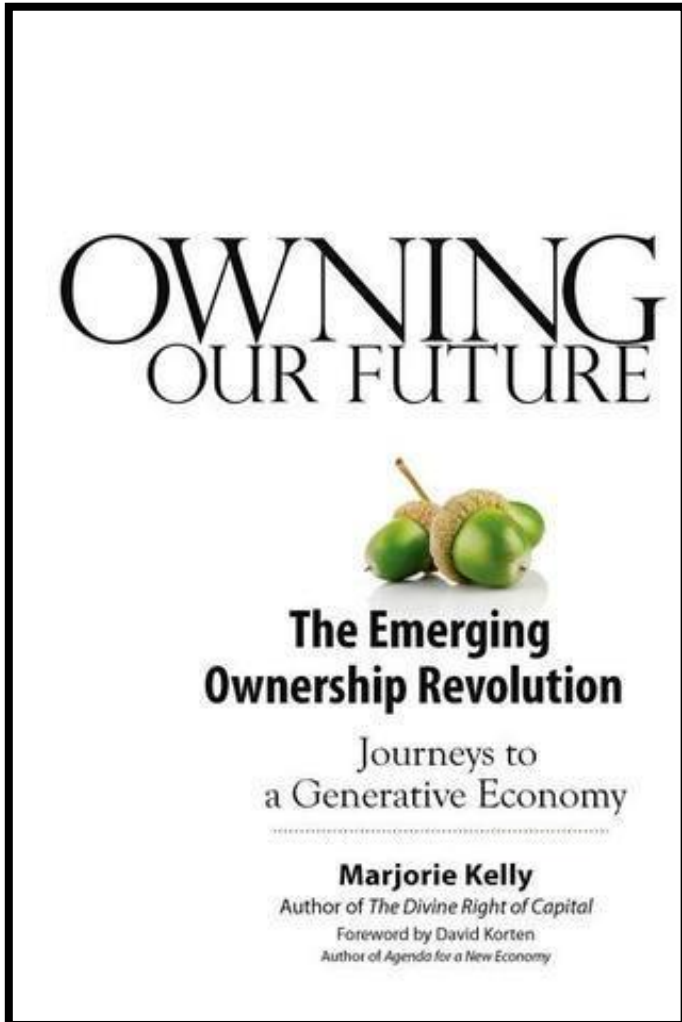

Qualitative Research: Data Collection & Data Analysis Techniques is especially written for anyone who is interested in doing or learning more about qualitative research methods. The reader-friendly organisation and writing style of the book makes it accessible to everyone-academics, professionals, undergraduates, postgraduates, researchers, and even for those who are just beginning to explore the field of qualitative research.

Each chapter provides a clear, contextualized and comprehensive coverage of the main qualitative research methods (interviews, focus groups, observations, diary studies, archival document, and content analysis) and will thus equip readers with a thorough understanding of the steps and skills to undertake qualitative research effectively.

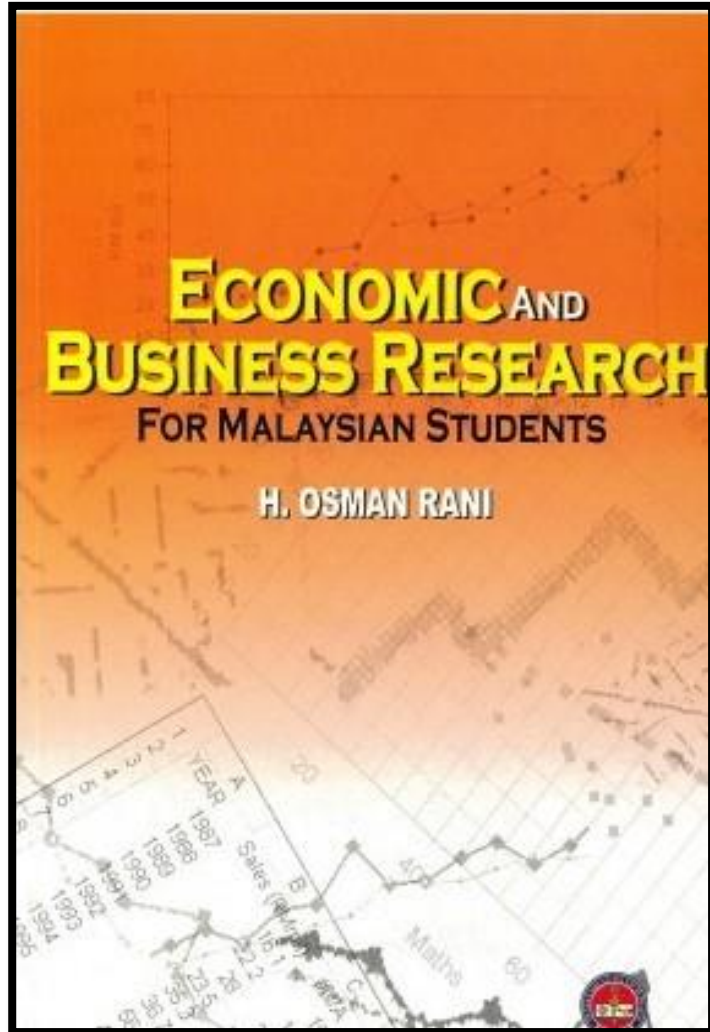

Environmental analysis is an essential procedure in identifying major causes of environmental issues for effective environmental management under various field conditions. This handbook shows how scientific methodologies are used to analyse change in the environmental quality of the water, and to a lesser extent of the air and soil and the noise level, for the environment and human health. This handbook will be beneficial for students and professionals in the field of environment.

OWNING OUR FUTURE: THE EMERGING OWNERSHIP REVOLUTION

As long as businesses are set up to focus exclusively on maximizing financial income for the few, our economy will be locked into endless growth and widening inequality. But now people are experimenting with new forms of ownership, which Marjorie Kelly calls aimed at creating the conditions for life for many generations to come. These designs may hold the key to the deep transformation our civilization needs. To understand these emerging alternatives, Kelly reports from all over the world, visiting a community-owned wind facility in Massachusetts, a lobster cooperative in Maine, a multibillion-dollar employee-owned department-store chain in London, a foundation-owned pharmaceutical company in Denmark, a farmer-owned dairy in Wisconsin, and other places where a hopeful new economy is being built. Along the way, she finds the five essential patterns of ownership design that make these models work.

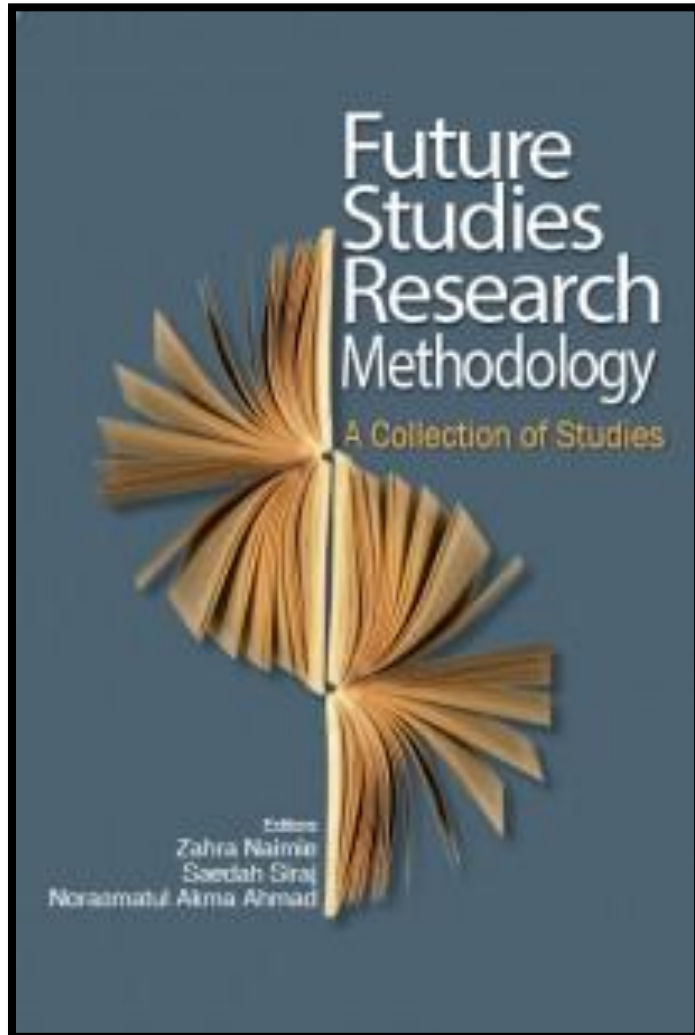

ECONOMIC AND BUSINESS RESEACRH FOR MALAYSIAN STUDENTS

This book has been organized with the Malaysian graduate and advanced undergraduate students in mind. While it emphasizes an understanding of research ideas and methods for economics and business, it is also meant to develop the discipline of the mind and the thinking skills necessary in decision making process and effective management. As we enter the Knowledge era, research exploration will provide a useful framework for connecting knowledge economy, learning and organizational action. This book was planned to approach the subject from this wide perspective.

Overall, this book is written to counter three major myths: that serious research should only begin after a research proposal has been accepted, that researching and writing are two separate activities, and that research is tough, stressful and unpleasant.

FUTURE STUDIES RESEARCH METHODOLOGY: A COLLECTION OF STUDIES

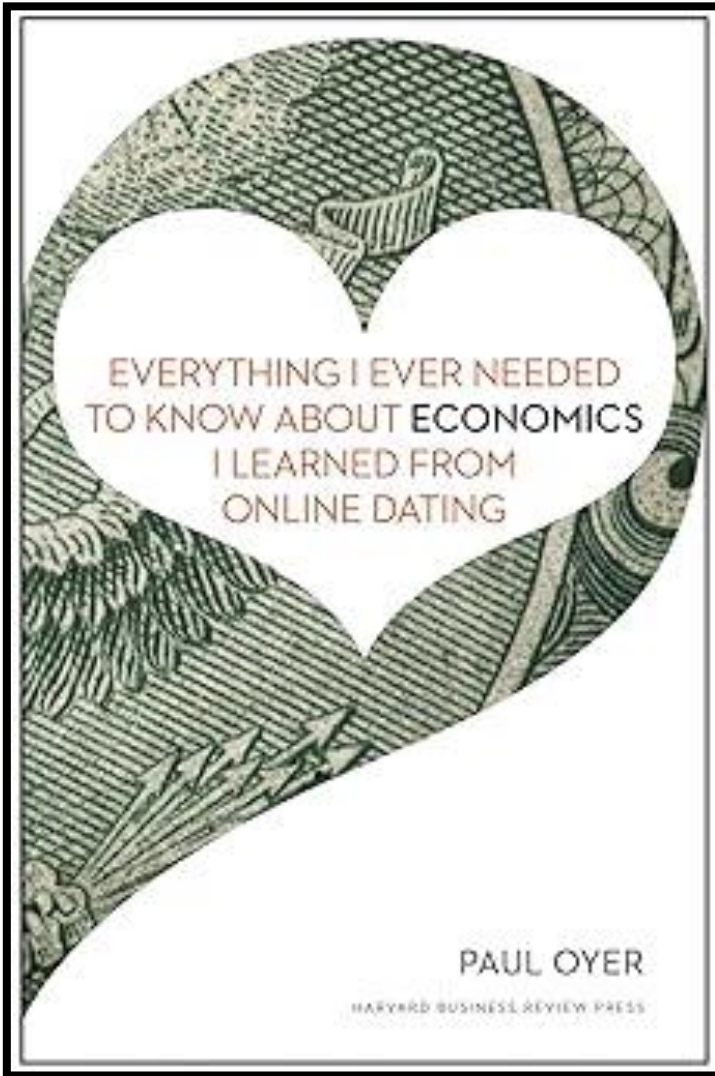

Future Studies Research Methodology in Practice: A Collection of Studies, is a practical guide for those who are directly involved in research. Features of research methodology in future studies are covered and it is a useful teaching and learning handbook for all range of courses related to research at both undergraduate and post-graduate levels.

This book with 8 chapters, can be used as a reference by researchers when they are conducting and reporting their research. With a comprehensive theory and practical-based, this book introduces readers to methods of conducting research. This book certainly allows readers to easily understand the entire research process of Fuzzy Delphi, and Design and Development Research Method.

Furthermore, explanation about the concept of research, especially the methods and design are simplified and explained in detail with examples across all levels of education: Pre-school, Primary, Secondary, and Post-graduate. Field of research across different disciplines namely language and literacy, education planning, and dental education are provided to help readers of all levels to understand, apply, and integrate the research methodology in all possible areas of education.

EVERYTHING I NEVER NEEDED TO KNOW ABOUT ECONOMICS I LEARNED FROM ONLINE DATING

After more than twenty years, economist Paul Oyer found himself back on the dating scene but what a difference a few years made. Dating was now dominated by sites like Match.com, eHarmony, and OkCupid. But Oyer had a secret weapon: economics.

It turns out that dating sites are no different than the markets Oyer had spent a lifetime studying. Monster.com, eBay, and other sites where individuals come together to find a match gave Oyer startling insight into the modern dating scene. The arcane language of economics search, signaling, adverse selection, cheap talk, statistical discrimination, thick markets, and network externalities provides a useful guide to finding a mate. Using the ideas that are central to how markets and economics and dating work, Oyer shows how you can apply these ideas to take advantage of the economics in everyday life, all around you, all the time. For all online daters and for anyone else swimming in the vast sea of the information economy this book uses Oyer's own experiences, and those of millions of others, to help you navigate the key economic concepts that drive the modern age.

Bermula dengan minat membaca buku yang mendalam dan kemudiannya berjinak-jinak atau mencuba-cuba menulis ulasan buku, akhirnya lahirlah sebuah buku seperti ini. Sebuah buku yang menunjukkan kegigihan penulis dengan segala kepayahan untuk cuba menerokai dunia idea yang cukup luas.

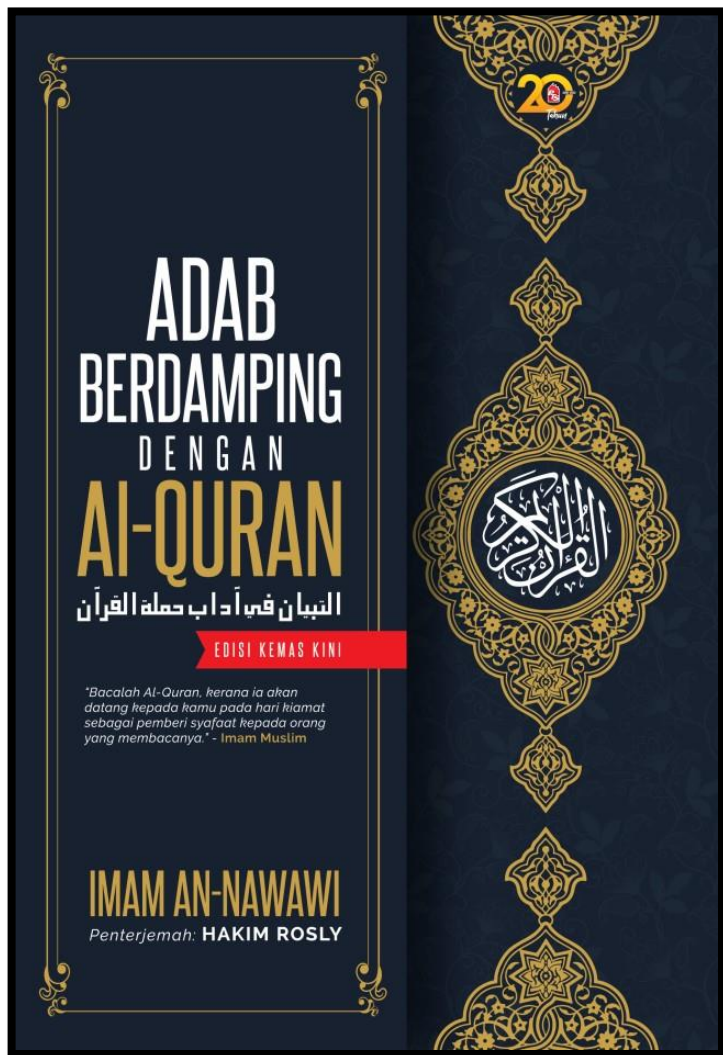

Diibaratkan sebagai sebuah spektrum, yang dari segi idea merangkumi kanan (konservatif), tengah (liberal), dan kiri (radikal), buku ini dikelompokkan kepada beberapa bahagian, iaitu "ekonomi", "krisis ekonomi", "politik", "globalisasi dan antarabangsa", "sistem dunia", dan "Malaysia".

Buku ini membahaskan idea para pemikir atau cendekiawan, ahli ekonomi, penggubal dasar, intelektual Amerika Syarikat yang cuba melakarkan peta dunia pasca-Perang Dingin dan tiga orang pemikir "geng empat" yang dikelompokkan dalam sistem dunia.

Sistem Pangkalan Data ditulis untuk membantu pembaca memahami konsep, mereka bentuk, dan membangunkan sistem pangkalan data. Buku ini dibahagikan kepada lapan bab bermula daripada penerangan tentang pengenalan dan persekitaran pangkalan data, mereka bentuk pangkalan data dengan menggunakan model data, penormalan dan penyemakan sifat jadual, dan diakhiri dengan manipulasi data menggunakan bahasa pertanyaan berstruktur.

Setiap bab mempunyai soalan latihan yang boleh digunakan untuk menguji kefahaman pembaca terhadap bab-bab yang diikutinya. Buku ini sesuai digunakan sebagai bahan pengajaran dan pembelajaran oleh pensyarah, pelajar atau pembaca umum yang berminat untuk memahami sistem pangkalan data.

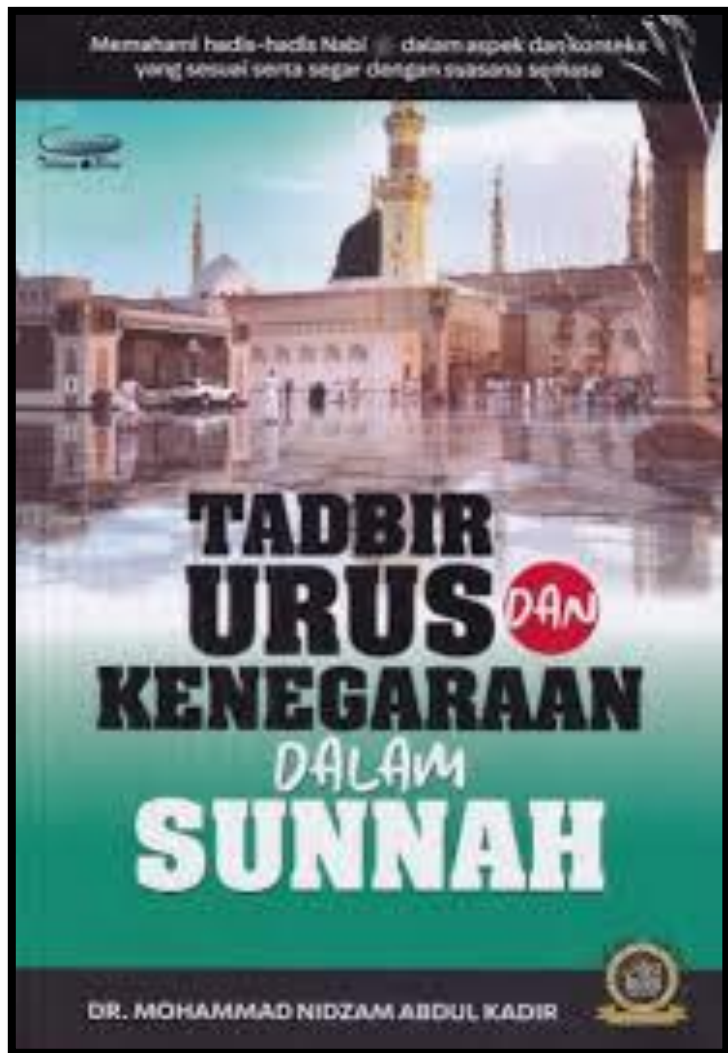

Melihat hurufnya, mendengar alunan bacaannya, malah membaca isi kandungannya sudah dijanjikan ganjaran yang besar, apatah sekiranya mentadabbur dan mengamalkan segala suruhannya.

Buku Adab Berdamping dengan Al-Quran karya Imam An-Nawawi menggariskan panduan yang jelas berpandukan Al-Quran dan sunnah.

Antara topik yang dibincangkan adalah:

- Mengapa perlu membaca Al-Quran?
- Apakah yang membuatka 'ulat' Al-Quran begitu istimewa?
- Adab dan etika pendammping Al-Quran.
- Ayat-ayat dan surah Al-Quran yang digalakkan untuk dibaca pada waktu dan keadaan yang khusus.

Hadis atau sunnah merupakan sesuatu yang disandarkan kepada Nabi SWT. Sebarang perkataan, perbuatan dan perakuan Nabi ialah hadis dan ia ialah sumber hukum. Terdapat pemahaman yang menyatakan bahawa apa-apa sahaja yang tercatat dalam riwayat hadis hendaklah diterima bulat-bulat tanpa sebarang pengubahsuaian atau tafsiran, kerana hadis merupakan sumber utama bagi umat islam.

Memang benar hadis dan sunnah merupakan sumber utama. Namus, hadis dan sunnah sewajarnya difahami dengan mendalam. Pemahaman ini adalah penting kerana hadis berbicara dalam pelbagai aspek, konteks dan sebagainya. Justeru, wujud satu keperluan untuk memahami dan mendalami prinsip sunnah nabi dalam kepelbagaian bentuk tindakan, juga bagaimana para ulama usul fiqh membicarakan aspek hukum sama ada wajib, sunat, harus, panduan dan sebagainya.

"Gemilang"

Di arus zaman berubah
moden dan penuh rintangan
tetap melangkah dan berevolusi
dan menuju matlamat jaya

Seiring dan seirama
bersama tekad di hati
misi dan visi berinovasi
Gah di mata dunia

VIDEO "GEMILANG"

Chorus

Gemilang, perangkaan jitu
data terpelihara
pelbagai anugerah
membuktikan kita juga berdaya
Gemilang, harumkan negara
di antarabangsa
berpadu tenaga, berganding bahu
dan kejayaan di rasa

Langkah strategi di yakini
kejayaan di kecap
sejarah yang terukir
menjadi inspirasi
